

Practice Project Title: "Exploring Our Moon"

Objective: To practice applying advanced PowerPoint skills by creating a detailed, interactive, and engaging presentation on the Moon, incorporating features such as slide transitions, animations, timing, charts, and multimedia inserts.

Project Description:

Each student will create a 6-slide PowerPoint presentation on the Moon. The presentation should include information about the moon's origin, its phases, human exploration of the moon, and a fun fact.

1. Slide 1 - Title Slide

- Title: "Exploring Our Moon"
- Student's Name
- Date
- Transition: Fade (or any other simple transition)

2. Slide 2 - Moon Origin

- Title: "The Origin of the Moon"
- One or two sentences about how the moon was formed.
- One relevant image
- Animation: Appear (for text and image separately)
- Transition: Push (or any other simple transition)

3. Slide 3 - Moon Phases

- Title: "Phases of the Moon"
- A chart showing the different phases of the moon.
- One relevant image
- Animation: Fade (for text and image separately)
- Transition: Wipe (or any other simple transition)

4. Slide 4 - Human Exploration

- Title: "Human Exploration of the Moon"
- One or two sentences about the first moon landing or a brief history of human exploration of the moon.
- One relevant image or short video clip
- Animation: Zoom (for text and image separately)
- Transition: Split (or any other simple transition)

5. Slide 5 - Fun Fact

- Title: "Fun Fact About The Moon"
- One fun or interesting fact about the moon.
- One relevant image
- Animation: Bounce (for text and image separately)
- Transition: Cover (or any other simple transition)

6. Slide 6 - References

- Title: "References"
- List of sources for images, facts, etc. used in the presentation.
- Transition: None

Practice Project Evaluation Criteria Checklist (Each item carries one point, for a total of 30 points):

1. All required slides are present (6 points)
 - Title slide
 - Moon Origin slide
 - Moon Phases slide
 - Human Exploration slide
 - Fun Fact slide
 - References slide
2. Each slide has appropriate content as per guidelines (6 points)
 - Title and student name/date on Title slide
 - Description and image of moon origin on Moon Origin slide
 - Chart and image of moon phases on Moon Phases slide
 - Description and image or video of human exploration on Human Exploration slide
 - Fun fact and image on Fun Fact slide
 - List of sources on References slide
3. Images, videos, and charts are relevant and properly formatted (6 points)
 - Appropriate image, video, or chart on each slide
 - Multimedia elements are properly sized and positioned
 - Multimedia elements support the slide's content
 - Images and videos have been edited for better clarity/visibility if necessary
 - Multimedia elements are well-placed and don't interfere with the readability of the text
4. Transitions and animations are used correctly (6 points)
 - Each slide (except the last one) has a transition effect
 - Each slide has animations for text and multimedia elements
 - Animations and transitions are appropriate for the content
 - Animations and transitions are not too fast or too slow
 - Animations and transitions enhance the presentation rather than distract from it
5. Timing is properly set so the presentation flows smoothly (6 points)
 - Transitions and animations occur in a logical order
 - The timing of transitions and animations fits the content of the presentation
 - Timing keeps the audience's attention
 - Timing allows enough time to read and understand each slide's content
 - Timing is consistent throughout the presentation
